# Could Have Fooled Me

## Adam Gregory

I'm fading like the taillights | Of a car that you pass | In the middle of the night | Man it's lonely out here | There just ain't enough gasoline | To put the distance I need between | The hurt inside | Wasn't it good | Wasn't it right | Wasn't it worth sticking around for | Putting up a fight? | You could have fooled me | Ain't it my luck | I could have sworn what we | Felt inside was love | Your touch it was warm | Your kiss it was sweet | It felt exactly the way | Love's supposed to be | You could have fooled me | She'll be getting up about now | Have her coffee then it's off for town | Will she think about me? | After work when she gets home | She'll finish that book lying there by the phone | Is she hoping I'll call? | Wasn't it real? | Wasn't it amazing | Didn't she feel the same | Or am I just crazy? | You could have fooled me | Ain't my luck | I could have sworn that what we | Felt inside was love | Your touch it was warm | Your kiss was sweet | It felt exactly the way | Love's supposed to be | You could have fooled me | When I held you close | When we said we'd never let go | Wasn't it good | Wasn't it right | Wasn't it worth sticking around for | Putting up a fight? | You could have fooled me | Ain't my luck | I could have sworn that what we | Felt inside was love | Your touch it was warm | You kiss was sweet | It felt exactly the way | Love's supposed to be | You could have fooled me | Ain't my luck | I could have sworn that what we | Felt inside was love | Your touch it was warm | Your kiss it was sweet | It felt exactly the way | Love's supposed to be | You could have fooled me | You could have fooled me | You could have fooled me | You could have fooled me
