

IMN

Mudvayne

Suicide, don't give a fuck about this, my life or any other
Just go away and let me hang
Impossible to forgive, forget it, murderer
I'm in control Living in a lie, make you pay at all cost for this
Love sick, bullshit, bring it
Decisions making themselves
I don't need you thorns in my side, so I die No one, no one could ever understand
My life's exhausted
No one, no one could ever understand
This life Imn Determined, to bring you all down with me, break you, beat down
No more fucking empathy from me, for you
Fed up I've had enough
Duality, my war Existence, instigated controversy, lay down, sell out, so wrong
Drag the blade and go away
I stand cold, cruel and lost
Take me I'm ready No one, no one could ever understand
My life's exhausted
No one, no one could ever understand
Pressure constricting So hard, like a stone, fight hard
Break bones, break
No one, no one could ever understand
This life Imn Your pressure
My time's eroding my life
Fight for your honesty
Fight for integrity All work and no play
All work and no play
All work and no play makes me
All work and no play makes me I want to eat a bullet, carve myself, beat my face, catatonic
Dig my brain, no pain, suffocate, stomach aches
Don't give a fuck, I'm out, I'm done fuck this shit
You've dug the hole, I'm lying in No one could ever understand
No one could ever understand
Fight for your honesty
Fight for integrity No one, no one could ever understand
My life's exhausted
No one, no one could ever understand
Pressure constricting So hard, like a stone, fight hard
Break bones, break

No one, no one could ever understand
This life ImnMy world, my rules, my noose
My world, my rules, fuck you
My world, my rules, my noose
My world, my rules, fuck you
