

# Early In The Morning

Ray Charles

Oh, Annette, you know I loved you till you left me  
Oh, Annette, you know I cared till you were gone  
I was young and foolish, I didn't know what I was doin'  
I didn't know I lost you till you're gone  
Oh, Annette, you know I loved you till you were gone

So I gotta get up early in the morning  
To find me another lover  
So I gotta get up early in the morning  
To find me another lover

So I gotta get up early in the morning  
To find me another lover  
Gotta get up early in the morning  
To find me another lover

Now I gotta get up early every morning  
~Cause the early bird always catches the worm  
Now I gotta get up every morning  
Gotta make up for the lesson I've learned  
Gotta find me a lover that won't run for cover  
Gotta find me a lover that won't run the mother

~Cause I gotta get up early in the morning  
To find me another lover  
So I gotta get up early in the morning  
To find me another lover

So I gotta get up early in the morning  
To find me another lover  
So I gotta get up early in the morning  
To find me another lover

I was young and foolish, I didn't know what I was doin'  
I didn't know I lost you till you're gone  
She had a pretty face that drove men wild  
I even wanted her to have my child

Early in the morning  
To find me another lover

So I gotta get up early in the morning  
To find me another lover

So I gotta get up early in the morning  
To find me another lover

So I gotta get up early in the morning  
To find me another lover

(Team say it)

Gotta find me another lover  
Gotta find me another lover  
Gotta find me another lover  
Gotta find me another lover

(Ladies just sing it one time, sing ladies)

Gotta find me another lover  
Gotta find me another lover  
Gotta find me another lover  
Gotta find me another lover

Early in the mornin'  
In the middle of the day, baby  
Late at night, mama  
Everything gonna be all right

Early in the mornin'  
In the middle of the day, baby  
Late at night, baby  
Everything will be all right

Early in the mornin'  
In the middle of the day, baby  
Late at night, baby  
Everything will be all right

Early in the mornin', baby  
In the middle of the day, baby  
Late at night, mama  
Everything will gonna be all right, yeah

Early in the mornin', baby  
In the middle of the day, baby  
Late at night, mama  
Everything will gonna be all right
