

# My Hell

## Disciple

It's not found in throwing roses on a grave  
Or in the cursed bottom of a bottled plague  
It wasn't in the torment that will never fade  
But I see the truth now This was my hell living without you here  
Even heaven is hell if somehow you were not there  
If you were not there It wasn't in the flames that won't stop burning  
Or within a fire that is never quenched  
It wasn't in the brokenness of all my failings  
And I see the truth now This was my hell living with out you here  
Even heaven is hell if somehow you were not there Lord, I need to breathe you, drink you, dream you  
Nothing ever will compare  
Need to breathe you, drink you, dream you, need you This was my hell living without you  
When you're so far away  
Even heaven is hell if heaven's without you  
When you're so far away from me  
Everything's hell if somehow you are not there I need to breathe you, drink you, dream you  
Nothing ever will compare  
Need to breathe you, drink you, dream you, need you
