

# Now That I Know

## Rae Sremmurd

Don't do  
EarDrummers  
Don't do

(Mike WILL Made It)Of course I want to lie and say I don't miss you

My bitch on the side just told me to forget you  
Quit tellin' the world that I deal with you  
That's what niggas do, that's what niggas do  
So much for a dream come true  
So this is what we've come to?

If you want to go, fuck youI don't know what it is about these bitches

Maybe it's me listenin' to the radio  
Kickin' it with this good dope  
That I chose to roll with these bad hoes  
And I can't complain

I came up, came up on y'all hoes and I'm not ashamedSomethin' went wrong, somethin' went wrong

Somethin' went wrong, somethin' went wrong  
Somethin' went wrong, terribly wrong

Somethin' went wrong, terribly wrongOf course I want to lie and say I don't miss you

My bitch on the side just told me to forget you  
Quit tellin' the world that I deal with you  
That's what niggas do, that's what niggas do  
So much for a dream come true  
So this is what we've come to?

If you want to go, fuck youTwo middle fingers

It ain't nothin' to forget you  
I blocked your number, can't call my phone

And I'm with some other bitches  
She a player like me

Try to leave a nigga on E  
Had to keep trippin', OD  
Bounce back to the old me

I shoulda listened to the homies

Hit it then quit it then went about my fuckin' business

But I was fuckin' with lil momma, that was my decision

And don't really listen to nobody else opinion

You tell your girls you're done with me

But I know you fuck with me

'Cause these other niggas inconsistent

And these other niggas ain't JxmmiOf course I want to lie and say I don't miss you

My bitch on the side just told me to forget you  
Quit tellin' them hoes, that I chill with you  
That's what niggas do, that's what niggas do  
So much for a dream come true  
So this is what we've come to?  
If you want to go, fuck you Somethin' went wrong, somethin' went wrong  
Somethin' went wrong, somethin' went wrong  
Somethin' went wrong, terribly wrong  
Somethin' went wrong, terribly wrong Now that I know, now that I know  
Now that I know, now that I know  
Now that I know, now that I know  
Now that I know, now that I know
