

# Call My Name

## Avery\*Sunshine

Tell me sweet nothing's no more  
I guess life has gotten in the way, yeah  
How in the world could this happen to us  
We use to have so much to say Tell me baby When was the last time you heard me call you sweet darling, yeah  
And when was the last time I heard you say hey baby, hey, (been such a long time)  
It's been such long time since you heard me call you sweet darling, (I don't know)  
I just can't remember the last time you called my name Mmmm, I don't know where we went wrong  
And I don't won't these days to turn to years, baby (I decided)  
So I decided not to live this way  
So I'm asking you through my tears (So tell me baby)  
When was the last time you heard me call you sweet darling, (I don't remember when)  
And when was the last time I heard you say hey baby, (hey baby) hey (hey baby, baby, baby)  
n It's been such long time since you heard me call you sweet darling  
(And I just can't remember why)  
And I just can't remember the last time you called my name  
(I just don't know, hey) All I wanna hear is  
Hello hello  
My love my love  
Sweet baby (ooh woo)  
That's all I really need to hear you say When was the last time you heard me call you sweet darling, yeah  
And when was the last time I heard you say hey baby, hey, (I just want you to call my name)  
It's been such long time since you heard me call you sweet darling,  
I just can't remember (I just can't remember baby) the last time you called my name (Call me, call my name)  
When was the last time I heard you call me sweet darling  
And when was the last time I heard you say hey baby, hey (things, things just aren't the same)  
It's been such long time since you heard me call you sweet darling. (all you gotta do, all you gotta say  
And I just can't remember the last time you called my name
