No Matter How I Try

Gilbert O'Sullivan

No matter how I try
I just can't say goodbye
No matter whay you say
looks like I'm here to stayNo matter where I go
I don't know if you know
but everywhere we been
I'm kept in quarantineIt's easy to see why
She's over six feet five
I'm only five foot two
Is there a tyre somewhere
That might take me a spare
Is there a bank in town
That might cash me a pound
Is there a place you know
Where I can open the doorIt's easy to see why
She's over six feet five
I'm only five foot two
Is there a tyre somewhere
That might take me a spare
Is there a bank in town
That might cash me a pound
Is there a place you know
Where I can open the doorOh I remember our first anniverary
It was one of those occasions where believe you me
I would rather been held ransom at the point of a gun
Then to suffer indignation for something I hadn't doneNo matter how I try
I just can't say goodbye
No matter whay you say
looks like I'm here to stay
