Don't tell anyone
Don't tell anyone
Don't tell anyoneWe share a joke in the
Well fine, know how to make you laugh
 No hang ups between us
 Not like the other girls and love
 You're different, confident
 Our secret's safe with me
 Red lipstick on my cheek
Your love must last all week, girlI can't tell, can't tell, can't tell anyone
 What we've got going on
 Don't tell, don't tell, don't tell anyone
 What we've got going on
 Hold hands, got plans
 Don't tell anyone
 What we've got going on
Can't tell, can't tell, can't tell anyoneDon't tell anyone
 Don't tell anyone
Don't tell anyoneOur love is what others could never come to understand
 But we like clothes, your heart beats slow
 And I can hear it with my hand
 We love it, if I ever
 Ever caught your legs wrapped around me
 Tear you from out my arms
And we'd be history, girlCan't tell, can't tell, can't tell anyone
 What we've got going on
 Don't tell, don't tell, don't tell anyone
 What we've got going on
 Hold hands, got plans,
 Don't tell anyone
 What we've got going on
Can't tell, can't tell, don't tell anyoneDon't let them see us holding hands
 Our love's one thing they'll never understandDon't let them see us holding hands
Cos our love's one thing they'll never understandCan't tell, can't tell, can't tell anyone
 What we've got going on
 Don't tell, don't tell, don't tell anyone
 What we've got going on
 Hold hands, got plans,
 Don't tell anyone

What we've got going on
Can't tell, can't tell, can't tell anyone
Don't tell anyone
Don't tell anyone
Don't tell anyone
Don't tell anyone
