

America

Motorhead

America, hot as hell, hysterical, cast your spell
The endless road, another night to bend your mind
White line fever, I think that state patrol car's still behind
America, cold as death, up to Canada, crystal meth
Another Westcoast turnaround and back to start
Yakima reservation, just another broken heart

[Incomprehensible]America, I liked it fine, Sinsemilla, Ripple Wine
Another schoolgirl with her daddy's Pontiac
Another killer from the wrong side of the tracks
America, fast cars, America, the girls, the bars
America, don't make no fuss, America, get on the bus
