

Generator

Astral Social Club

We generate heat
We generate emotion
We generate a feeling
That is better left here

Than a memory on a wallI'd rather cry than forget youWe generate pain
We generate suspicion

We generate a rumour that's sick

But a rumour that is probably trueI'd rather die than forget you(I won't let my dreams slip away from me)

I'm talking sex motion

I'm talking 'bout fashion

I'm talking 'bout skin games

I'm talking 'bout secrets(And I won't let my heart run away with me)

I'm talking temptation

I'm talking 'bout memories

I'm talking 'bout feelings

I'm talking 'bout emotionWe generate lies

We generate pictures

We generate a video film

That I couldn't let my best friend seeI'd rather lose than forgive youWe generate shame

We generate secrets

We generate a reason for living

And we generate a reason for notI'd rather hurt than forget youI can't believe that I'm here

I can't believe what I've seen

I can't believe what I'm doing to you
