

# Sky Flashings (Earthsuit Album Version)

## Earthsuit

Who keeps the balance in suspended skies  
Supporting earth with inward thrust  
Let the audience refocus eyes  
On all sky flashings in front of usWho's seen in the midst of unsealing skies  
It's revelation that all can see  
And our hearts remain hushed inside  
Mindless of fantasia we enjoy for freeIt takes a miracle, kaleidoscope superior  
Spinning vortex, bleeding shades of night to daySovereign pictures center stage  
Genius of the cosmic craze  
Days and nights keep on and on  
God abroad in blended songIn our sky flashings  
In our sky flashings  
In our sky flashings  
In our skyWho can deny this pure design  
Emanating views never seen  
Revealing art to mortal minds  
Entranced in our phantasmic dreamsSovereign pictures center stage  
Genius of the cosmic craze  
Days and nights keep on and on  
God abroad in blended songIn our sky flashings  
In our sky flashings  
In our sky flashings  
In our skyIt takes a miracle, kaleidoscope superior  
Spinning vortex, bleeding shades of night to daySovereign pictures center stage  
Genius of the cosmic craze  
Days and nights keep on and on  
God abroad in blended songIn our sky flashings  
In our sky flashings  
In our sky flashings  
In our skyDays and nights keep on and on  
Days and nights keep on and on  
Days and nights keep on and on  
God abroad in blended songIn our sky flashings  
In our sky flashings  
In our sky flashings  
In our sky
