## The Hi-Risers

Fortunes are running out  
Through the spectrum, a spectrum  
You wanna tumble with me?  
We'll take you out, with election election  
Don't bother to retreat  
We'll hold you down, with connections, connections  
We will not settle till we Follow you down  
Down  
Follow you down Sill the sound  
Welcome back it's erection suspension  
The comma we've received  
Has want you down to pretension, retention  
Please don't argue with me for any count of complexion, complexion  
We will not settle till we See  
Have all gone free Well something in the scripture  
Open a mace to make the face turn round  
Does it make it look like anyone can fly  
(stop it) Yea (kill it) Yea  
I'm pissed around a slide  
Turn your ass round and  
Everyone walk to a single space  
(stop it) Yea (kill it) Yea (stop it) Yea (kill it) Yea [etc]  
That's probably why I can't stand up now. Follow You Down  
Down  
Follow You Down.
