

Looking Like Danger

New Kids On the Block

Upside down, you make it hard to be faithful
Hard to be faithful, hard to be faithful
Just my type of luck, that just when I find a girl
You come into the club, trying to throw my worldUpside down, you make it hard to be faithful
When you look like that and your body's like crazy
Can't figure you out cause you look like an angel
But the devil comes out when you dance with me, babyChorus:
Here I go looking like danger
Let me stay there, far away, stuck to me, yeah
There she goes, looking like danger
Can get her out of my mind, she's stuck to me, yeahI can't lie, you make it hard to be honest
Hard to be honest, hard to be honest
Quarter after four, I really got to go
Cause deep inside I know, you're nothing but troubleI can't lie, you make it hard to be honest
When my girl's at home, you got me acting so shady
Can't figure you out cause you look like an angel
But the devil comes out when you dance with me, babyChorusUpside down, you make it hard to be faithful
At home I got a baby, but you're tempting me
I can't lie, you make it hard to be honest
You're so good at what you do
You do it perfectly (Upside down, you make it...)Upside down, you make it hard to be faithful
At home I got a baby, but you're tempting me
I can't lie, you make it hard to be honest
You're so good at what you do
You do it perfectlyChorus 2x
