(and She Said) Take Me Now

Justin Timberlake

What you waiting for?
I know you're watching me
Hey boy, come on and take me now
What you waiting for?
I know you're watching me
Hey boy, come on and take me now
Can I talk to you for a minute?
You've been looking all night for your shining star
Well baby, here I am, so why you waiting?
Step on over, let me show you how bad you are
Just let me take the lead
All you gotta do is let your mind be free
Let's hit the floor and cause a scene
Get real wet if you know what I mean, what you say baby?
(And she said)
Take me now
I'm hungry for your loving
(And she said)
Show me how
You got me working, honey
(And she said)
Right now
I'm hot just like an oven
(And she said)
So take me now
Boy, you make me feel like I gotta dance
I gotta dance, gotta dance baby, I gotta dance
I feel good to you, you try to hide it
But I can tell by the way you push up close to me
Your body temperature is arising
Something's going down as far as I can see
Just let me take the lead
All you gotta do is let your mind be free
Let's hit the floor and cause a scene
Get real wet if you know what I mean, what you say baby?
(And she said)
Take me now
I'm hungry for your loving
(And she said)

Show me how
You got me working, honey
(And she said)
Right now
I'm hot just like an oven
(And she said)
So take me now
Boy, you make me feel like I gotta dance
You know
Don't I
Say, don't I make you feel like you gotta dance
Once I get to know ya
(No)
I'm gonna show ya
(No)
That there's no better way
(Yea)
Let's dance the night away
(Yea)
I wanna control ya
(No)
Just wanna hold ya
(No)
Dance the night away
So what you say baby, what you say?
(What you saying to me?)
(And she said)
Take me now
(Oh)
I'm hungry for your loving
(Hungry for you)
(And she said)
Show me how
(Oh)
You got me working, honey
(Got me working)
(And she said)
Right now
(Oh)
I'm hot just like an oven
(Hot just like an oven)
(And she said)
So take me now
Boy, you make me feel like I gotta dance
(And she said)

Take me now
(Oh)
I'm hungry for your loving
(Hungry for you)
(And she said)
Show me how
(Oh)
You got me working, honey
(Got me working)
(And she said)
Right now
(Oh)
I'm hot just like an oven
(And she said)
So take me now
Boy, you make me feel like I gotta dance
Like you gotta dance, like you gotta dance, like you gotta dance, no
Like you gotta dance, like you gotta dance, like you gotta dance, no
Here we go now
Oh, oh
Oh, oh
Oh, oh
Oh, oh
I'm like a hurricane
Just coasting along
You better grab me girl
I hope you take me now
I'm like a hurricane
Just coasting along
You better grab me girl
I hope you take me now
I'm like a hurricane
Just coasting along
You better grab me girl
I hope you take me now
I'm like a hurricane
Just coasting along
You better grab me girl
T-t-take me now
Take me now
I'm hungry for your loving
Show me how
You got me working, honey
Right now
I'm hot just like an oven

So take me now
Take me now, take me now
Take me now
I'm hungry for your loving
Show me how
You got me working, honey
Right now
I'm hot just like an oven
So take me now
Boy, you make me feel like I gotta dance
