

# Sing

## Vega 4

I don't wonder why the world is like a sea  
That I've been swimming in  
And how long can I hold without breathing in? I just need to fly like I'm a shooting star  
See the world and the way we are  
And how long can I last without breathing out? And I will sing for all the people  
That I feel love  
And I will sing for all the people  
That I feel I don't want it all, just most of everything  
I want to soar on a street kids dream  
And how much can I take without caving in? And I will sing for all the people  
That I feel love  
And I will sing for all the people  
That I feel I just want to fly like I'm a satellite  
See the world and the way I am, oh  
We can sing our songs across sons of God  
Feel the crowd and the ego sin And I will sing out, I will sing out  
And I will sing for all the people  
Now I sing love  
And I will sing for all the people  
That I feel
