

Somethings Missing

Candy Hearts

I get another drink
trace the foam with my fingers
trying hard to figure out what I'm still doing here
Sitting next to you
when all our friends have left
but I won't quit when I'm aheadCause sometimes I feel like the change in the couch
and he only wants me when he's running outSomething's missing
(when I am next to you)
Something's missing
(in this crowded room)
Something's missing
(whenever our hands touch)
Something's missing with us
Let's pretend that I don't need my vices
that I kiss you because I like it
I'm not just letting you in
to feel anything for anyone who's not himAnd I'm sorry I slept in your bed
I just wanted to feel wantedSomething's missing
(when I am next to you)
Something's missing
(in this crowded room)
Something's missing
(whenever our hands touch)
Something's missing with us
I wish I could forget
Get him out of my head
Cause I'll smoke you like a cigarette then throw you out
when there's nothing new to talk aboutCause something's missing
