Hazy Miss Daisy

Kid Bloom

Daisy don't be cruel all of this depends on you
Your friends are laughing and you take your time
Lately you lose your way
Never mind what people say
Daisy don't you know it's getting late?

Run from the gallery
Too much going on around
Not sure what's needed she'll do anything
Sleeping in for days
Listen to my pillow say:
"What good could this be doing for anyone?"

Nothing matters at all
Nothing matters

I know the (girl?)
She's mad at the world
Doesn't take a lot to tell her the ugly words won't make it better
I'm not from here
She's calling me dear
(Shouting?) names won't make it better
(?) songs won't change the weather now
Make it better now
