

# Bring The House Down

## S Club 7

Oh yeah, oh  
Oh yeahAs the night draws in  
Let the game begin, it's a groove thing  
Let your feet decide  
Gonna catch a ride, keep on movin'So let's go away  
The mood can't be that hard to reach  
The night will just take us there  
And all you gotta do is  
All you gotta do isBring my house down  
Raise the roof and get on the floor  
Let's bring my house down  
Really wanna hear you shouting more, more, moreYou can stay in bed  
With a sleepy head, doing nothin'  
You can always try  
Just to walk on by, it will pull you inWe're flying away  
We fall into this fantasy  
Where the groove will carry us on  
And all we gotta do is  
All we gotta do isBring my house down  
Raise the roof and get on the floor  
Let's bring my house down  
Really wanna hear you shouting more, more, moreEverybody do your thing  
Let's bring the house down  
Everybody spread your wings  
Let's bring the house downSo let's go to way  
The mood can't be that hard to reach  
The night will just take us there  
And all you gotta do is  
All you gotta do isBring my house down  
Raise the roof and get on the floor  
Oh yeah, let's bring my house down  
Really wanna hear you shouting more, more, moreLet's bring my house down  
Raise the roof and get on the floor  
Oh yeah baby  
Let's bring my house down  
Really wanna hear you shouting more, more, moreBring my house down  
You'll be yeah  
Let's bring my house down  
Really wanna hear you shouting more, more, more
