

He Won't Leave You There

Jason Crabb

Verse 1: I can't tell you why you're walking through this valley
I can't tell you just how long you've gotta stay
I can't tell you why your heart feels so unsettled or when this all will change
But I can tell you there is something you can lean on
It's a promise that won't bend and it won't break
and it will keep you when the future is uncertain
You're not out of grace
Chorus: When the darkness overwhelms you and the fear just won't subside
When your questions outweigh answers on those long and lonely nights
Friend, you've gotta keep on moving He is with you in the valley of despair and He won't leave you there
Verse 2: He is with you when you think you just won't make it and He is right there when it looks like hope is lost
You're gonna find out He's nothing less than faithful so keep holding on, keep holding on
Chorus: When the darkness overwhelms you and the fear just won't subside
When your questions outweigh answers on those long and lonely nights
Friend, you've gotta keep on moving He is with you in the valley of despair and He won't leave you there
Bridge: There has never been a moment
There will never be a day
He's not strong enough to rescue
He's not strong enough to save
Chorus: When the darkness overwhelms you and the fear just won't subside
When your questions outweigh answers on those long and lonely nights
Friend, you've gotta keep on moving He is with you
OHHHHH When the darkness overwhelms you and the fear just won't subside
When your questions outweigh answers on those long and lonely nights
Friend, you've gotta keep on moving He is with you in the valley of despair and
He won't leave you there
He won't leave you there
