

# She Spreads Her Wings

## Semisonic

At night, she spreads her wings  
She dreams of bigger things  
She floats, above the town  
She sings without a sound She can be anywhere at all  
She can be anyone at all A glow and then a shine  
What she hoped she would find  
Tonight, tonight She's got a picture in her mind  
She can be anyone at all
