

Mad Gone World

Overkill

Cutting through confusion takes you far away
Confusing an illusion with thoughts that go astray
In a world gone mad and thriving in the boundaries of your brain
Imprisoned in a world created solely for the purpose of a crunch
What ya see and what ya feel are nothing
nothing real
A visionary climax an imagery so clear
Losing touch or reason both quickly slip away
Imprisoned in a world created solely for the purpose of a
Save me from this mad gone world
Save me from myself
Save me from this mad gone world
I need help
Save me from this mad gone world
Save me from decisions
Save me from this mad gone world
And indecision
One million minutes
One million nights
One million dreams I've had and a million fights
Livin' in a mad gone world, livin' blind
Livin' with this worldly madness
Just a state of mind, just a state of mind
Mad, mad gone world
Mad, mad gone world
Mad, mad gone world
Save me from this mad gone world
Save me from myself
Save me from this mad gone world
I need help
Save me from this mad gone world
Save me from decisions
Save me from this mad gone world
And indecision
