

# I Wanna Do It With You

Barry Manilow

Doesn't matter where I go  
Doesn't matter who I know  
Nowadays I always find  
You are always on my mind  
All I think about is love  
Love is all I'm dreamin' of  
I lay around in a daze  
Thinkin' of all the ways  
I wanna do it, do it with you  
I wanna do it, do it with you  
I wanna hold you all night long  
Ooh baby, feel so strong  
I wanna do it, do it with you  
I wanna do it, do it with you  
I want to love out my fantasies  
Come on, baby, please  
Say you will, say I can  
Say that I can be your man  
Say that I can be your man  
You've been out, had your flings  
I've been waiting in the wings  
I know my part, I know my lines  
I've rehearsed so many times

Let me turn the lights down low  
And we can get on with the show  
I wanna do it, do it with you  
I wanna do it, do it with you  
I wanna hold you all night long  
Ooh baby, feel so strong  
I wanna do it, do it with you  
I wanna do it, do it with you  
I want to love out my fantasies  
Come on, baby, please  
Oh honey, move in my direction  
Time for some serious affection  
Oh, it's gonna be such a fine thing  
Talk about thunder and lightning  
I wanna do it, do it with you

I wanna do it, do it with you  
I wanna hold you all night long  
Ooh baby, feel so strong  
I wanna do it, do it with you  
I wanna do it, do it with you  
I want to love out my fantasies  
Come on, baby, please
