

Keepin' Up With the Kids

Mindless Self Indulgence

now,now, - what i wanna know is
why don't finish your home anymore
knock me up and take my funk
cause I'm too old to be
I'm too old to be
keepin' up with all of the kids
keepin' up with all of the kids
some, some other way
some other place
i could be real important
no, not anymore, I'm just a bore
and you should be disappointed
now,now,why don't finish your home anymore knock me up
and take my funk
cause I'm too old to be
I'm too old to be
keepin' up with all of the kids
keepin' up with all the kids
some, some other way
some other place
i could be real important
no, not anymore, I'm just a bore
and you should be disappointed
no, no other way but rush the stage
and take away my fortune now -
you should be dead and i should be dead
and no one would be disappointed
