

Scissor Lock

Dredg

I think I'm awake, rolling on my blanket
I am sinking into the bed, light around me
Beautiful washes of pulsating color
Buzzing white noise, it sounds like one hundred bees
I too once thought the radio played
Let's act like children while we sleep paralyzed
I too once thought the radio played
Let's act like children while we sleep paralyzed
Pulsing, you control it
Body's asleep and your mind is awake
I too once thought the radio played
Let's act like children while we sleep paralyzed
I too once thought the radio played
Let's act like children while we sleep paralyzed
I too once thought the radio played
Let's act like children while we sleep paralyzed
