

# Diabolus

## Diabolus

I'm at the darkest side of life  
I've crossed the demon's paradise  
I've seen the fallen angels' eyes Some call this state insanity  
It's just as dark as it can be  
There's no way out I won't be free Can someone hear my call?  
Come and help me through it all  
Can you ease the pain?  
So my life won't be in vein I'm heading to the stars  
But the road won't lead no longer  
Up to the sunrise it won't heal  
The liberty seems far away Can't find the way  
The vision won't be clearer  
I see blood on my hands  
No more footprints in the sand  
Diabolus All through my life is close to hell  
I know my crime, I know it well  
There's no regret for me to tell I'm lost inside my misery  
I've prayed to God to set me free  
But there's a darker voice inside of me Can someone hear my call?  
Come and help me through it all  
Can you ease the pain?  
So my life won't be in vein I'm heading to the stars  
But the road won't lead no longer  
Up to the sunrise it won't heal  
The liberty seems far away Can't find the way  
The vision won't be clearer  
I see blood on my hands  
No more footprints in the sand Unleash me from my chains, who am I?  
I'm a slave under my own failures  
I'm a sinner that lives in a lie  
I've been down to the deepest valley  
But who am I? Please help me Can someone hear my call?  
Come and help me through it all  
Can you ease the pain?  
So my life won't be in vein I'm heading to the stars  
But the road won't lead no longer  
Up to the sunrise it won't heal  
The liberty seems far away Can't find the way  
The vision won't be clearer

I see blood on my hands  
No more footprints in the sand  
Diabolus Unleash me from these chains  
Release me from this pain  
I'm lost in misery Unleash me from these chains  
Release me from this pain  
I'm lost in misery
