Blood To Bleed

Rise Against

This place rings with echoes of
Lives once lived, but now are lost
Times spent wondering about tomorrow
I don't care, if we lose it all tonight
Up in flames, burning bright
Warming the air of the world
"I don't love you anymore," is all
I remember you telling me, never have I felt so cold
But I've no more blood to bleed
'Cause my heart has been draining into the sea
Steps I take in your footsteps
Are getting me closer to what is left
Of the dreams of what I once claimed to know
Within my bones this resonates
Boiling blood will circulate
Could you tell me again what you did this for?
"I don't love you anymore," is all
I remember you telling me, never have I felt so cold
But I've no more blood to bleed
'Cause my heart has been draining into the sea
And still I wait with a hope inside of me
So still I wait until again we meet, until again we meet
Within my bones this resonates, boiling blood will circulate
Could you tell me again what you did this for?
"I don't love you anymore," is all
I remember you telling me, never have I felt so cold
But I've no more blood to bleed
'Cause my heart has been draining into the sea
And still I wait with a hope inside of me
And still I wait
