

# Haunt Me

Sade

Haunt me in my dreams if you please  
Your breath is with me now  
And always it's like a breeze So should you ever doubt me  
If it's help that you need  
Never dare to doubt me And if you want to sleep I'll be quiet like an angel  
As quiet as your soul could be  
If you only knew you had a friend like me So should you ever doubt me  
If it's help that you need  
Never dare to doubt me
