

Shakin' That Tailgate

Trailer Choir

rollin rollin here they come
outta pickup trucks into the clubs
sweet little small town hotties
(so hot)
from the hollar from the sticks
in cowboy boots and blue jean hips
jacked up and ready to party
got the cold beer flowin
hey, get em going djthey'll start shakin that tailgate
round and round
back it on up and down to the ground
this honkeytonks on fire
come on now come on now
it dont matter whatcha call it
its all about the way they haul it
them country girls cant wait
to start shakin that tailgate
(shakin that tailgate)its wall to wall their packin in
girls hangin out with all their friends
rockin and ready to unwind
(here we go)
on the tables on the bar
it dont matter where they are
aint nothin here but a good time
got the cold beer flowin
hey, get em goin djthey'll start shakin that tailgate
round n round
back it on up and down to the ground
this honkeytonks on fire
come on now, come on now
it dont matter whatcha call it
its all about the way they haul it
them country girls cant wait
to start shakin that (tailgate)
