

# Metal

## Dial-Up

We're in the building where they make us grow  
And I'm frightened by the liquid engineers like you  
    My Mallory heart is sure to fail  
I could crawl around the floor just like I'm real like you  
    The sound of metal, I want to be you  
    I could learn to be a man like you  
        Plug me in and turn me on  
        Oh, everything is moving  
I need my treatment, it's tomorrow they send me  
    Singing, "I am an American", do you?  
    Picture this if they could make the change  
I'd love to pull the wires from the wall, did you?  
    And who are you and how can I try?  
    Here inside I like metal on you  
        All I know is no one dies  
I'm still confusing love with need
