

Crushed

[Tim Chaisson](#)

Head rush, can't get enough
Didn't see it coming and all of a sudden
There it was, here we go again
Into my heart and under my skin
?I wouldn't change a thing
I wanna run and and I wanna give in
I shatter when we touch

Pickin' up the pieces
Fallin' in deeper
For a million little reasons
You got me crushed

Midnight, lightening strike
I won't close my eyes, it's not the kinda thing that happens twice
In a perfect storm
We got a fire, we'll watch it burn

I wouldn't change a thing
I wanna run but I wanna give in
I can never get too much

When my heart was still healing
You made me believe again
For a million little reasons
You got me crushed
