

Goodbye

nelo

Well, Iâ€™ve been missing the call stuck in these city walls
Itâ€™s gonna be a while for this to straighten out
Everythingâ€™s wrong with this city today
Doors are all broken in- houses are caving in
How can these people live with nothing left to give?
I can be sure thereâ€™s plenty of pain
Oh yeah, the wind stopped- the wind, it brought the rain

Oh, somethingâ€™s over me
Yeah, when I am on my knees

People were sitting there smiling up at the air
Laughing so easily- stuck in their memory
Blowing their kisses of love away
She was a little girl when she woke up the world
(She) Danced down this loverâ€™s street without the eyes to see
All of the crazy colors it brings
Oh yeah, the sky fell and covered everything

Oh, somethingâ€™s over me
Yeah, when I am on my knees

Oh, I can be anything I dream
And oh, my love, thereâ€™s this opportunity
And oh, I can get over this thing
This is what I know of me

Well, this is where I begin- back on my feet again
Lessons I learned are gone- you wonâ€™t be waiting long
I fell in love with this city today
Yeah, the wind stopped- the wind, it brought the rain
Oh yeah, the wind stopped- the wind, it brought the rain

Oh, somethingâ€™s caught a little bit of my time
And oh, something dropped a little bit of sunshine
Yeah, yeah, yeahâ€œ Goodbye

Oh yeah goodbye
Oh yeah, goodbye
