I could see the look on your face
You went by me
There's no hiding
The way that you feelThere's no need to explain
The truth is so plain
I'm just expressing
The way that I feelI could see your hair sit still
Just doesn't feel
The way it's supposed to
I feel so badYou know we can always change scenes
By any means
Don't hesitate
To let me knowLet me know
Let me know
If you wanna go
Or we could stayIf you wanna change up the scene now
We can go and do that together
Just know I won't ever leave your side
Because I love you so...
