

# Stay

## Danny Saucedo

Can you hear my call  
I have tried for so long  
But you've been on the run  
Here I'm left to figure out  
Why you're not around  
In this empty place of mine  
'Cause all you ever gave  
Was a momentary love I can't find a reason  
For your absentminded way I don't know what to do  
There's is to much pain  
Holdin' on to you  
And I have nothing more to say  
I'm loving you in vain  
You have to stay Tryin' to fall asleep  
But my mind's awake  
'Cause all the things you do  
Surround inside my head  
I have never known home  
Until we fell in love  
Without your easy touch  
I don't know where I belong All my dreams will fail  
There will be nothing if you leave I'm out of loss  
- I can't do right no matter what  
I'm to confused  
- I can't think anymore  
Though it's obvious  
- I can't live without you
