Buffalo

Toro y Moi

I could feel the one to blame this touch
Doesn't matter what she's talking about
She's just gonna get gunned to bluff
We're not the only ones doing thisYou see the buffalo, just another one in the road
Laugh the batty in his face
Follow to the route in the other place
I know how this goes
It's all gonna be a bull you kiss
'Cause I was gonna be you girl
To please
Did you get all of me?
I'll see it
'Cause you love it all
'Cause you find the way
To keep onIt doesn't seem to get the truth
You still young, as to you
Someone take away his microphone
Though his mother say he lives on his own
Can't feel a thing when he takes a shot
In to take a pain right through the eyes
Can't shoot when your time is right
Can't stop fight if it ever stops
Get down tonight, out from
Don't know this way, too long
'Cause you love it all
'Cause you find the way
To keep on'Cause you love it all
'Cause you find the way
'Cause you love it all
'Cause you find the way
To keep on
