

My Heart Takes Over

The Saturdays

What's it gonna be?
Are you willingly walking away from this?

What's it gonna take,
Can you really break this love?

Where you gonna go?
Tell me do you know
When does your heart emit?

'Cause if you leave baby,
Then leave

Make up your mind
Before you shut the door

'Cause if there's a chance
We might've missed,
And if there's
A ray of light in this,
Baby you should know that
This is where my heart
Takes over, over, over

Going back in time
You know that we
Have tried to hard to
Let this fade
Almost disappeared
So we made it here,
Baby

And look me in the eye
Promise I won't cry
This is your choice
To make

'Cause if you go
Baby then go
You change your mind
I won't be here no more

'Cause if there's a chance
We might've missed,
And if there's

A ray of light in this,
Baby you should know that
This is where my heart
Takes over, over
And there's a small
Piece left of us
Somewhere in the
Battles we have lost
Baby look at me
'Cause this is
My heart takes over,
Over, over

This is where my heart
Takes over, over
This is where my heart
Takes over, over
This is where my heart
Takes over, over
This is where my heart
Takes over, over

What's it gonna be?
Are you willing
Walking away from this?

'Cause if there's a chance
We might've missed,
And if there's a
Ray of light in this
Baby you should
Know that
This is where
My heart takes
Over, over
And if there's a
Small piece left of us
Somewhere in the battles
We have lost
Baby look at me
'Cause this is where
my heart takes
Over, over, over

This is where

My heart takes
Over, over
This is where
My heart takes
Over, over
This is where
My heart takes
Over, over
This is where
My heart takes
Over, over
