

Who You Lovin

Conrad Sewell

Verse 1

She gets dressed up, and she said she's going out
I don't care, I say I don't care
And I call her, but the music's way to loud
She can't hear, say she cant hear Maybe it's all in my head
Maybe I'm paranoid
But when we get into bed, she never disappoints
It ain't the sex, its the love, that she's been looking for
If i don't some one else will give it to her Chores
So who you lovin, when I'm not around
cause you kiss don't feel the same baby
since I've been away
Who you lovin, when I'm out of town
you're not waiting anymore, when i walk in the door who you lovin
who oh oh oh oh oh oh
who you lovin (who you lovin)
Who you lovin (who you lovin babe)
who oh oh oh oh oh oh
who you lovin (who you lovin)
Who you lovin (who you lovin babe) Verse 2

I got Habits, She don't Bitch about no more
She don't care, It's like she don't care
We had magic, And now every chance she gets
She disappears, she just disappears Maybe it's all in my head
Maybe I'm paranoid
But when we get into bed, she never disappoints
It aint the sex, its the love, that she's been looking for
If i don't some one else will give it to her Chores
So who you lovin, when I'm not around
Cause you kiss don't feel the same baby
Since I've been away
Who you lovin, when I'm out of town
You're not waiting anymore, when i walk in the door who you lovin
who oh oh oh oh oh oh
who you lovin (who you lovin)
Who you lovin (who you lovin babe)
who oh oh oh oh oh oh
who you lovin (who you lovin)
Who you lovin (who you lovin babe) Bridge

Stop, cause the truth might break my heart
But don't leave me in the dark
Even though it may kill me
I still gotta know
So who you lovin, when I'm not around
Cause you kiss don't feel the same baby
Since I've been away
Who you lovin, when I'm out of town
You're not waiting anymore, when i walk in the door
who you lovin
who oh oh oh oh oh oh
who you lovin (who you lovin)
Who you lovin (who you lovin babe)
who oh oh oh oh oh oh
who you lovin (who you lovin)
Who you lovin (who you lovin babe) who you lovin (who you lovin)
Who you lovin (who you lovin)
who you lovin (who you lovin)
Who you lovin
