The Fight's About To Begin

Hinder

ah Come on
Hey!
Catch the feeling, it's going around.
Yeah the streets are jamming,
the clock is ticking down.
Feel the chills, on your skin
the fight's about to begin.
(Yeah)
Stand, awaken your voice in the crowd.
Yeah the place is shaking
this is what it's all about.
Bring it on, settle in
the fight's about to begin.
(FIGHT! FIGHT!)
So lights off for the show,
break it down, here we go.
The moment of truth is here again,
the fight's about to-
Take it up, a little more,
it's going down, this is war.
The moment of truth is here again,
The fight's about to begin.
(FIGHT! FIGHT!)
(It's about to begin)
(FIGHT! FIGHT!)
Yeah, come on,
we're live right now.
Everybody get up,
we're here to turn it out.
Let the thrills, pull in
the fight's about to begin
(FIGHT! FIGHT!)
(HEYY!)
So lights off for the show,
break it down, here we go.
The moment of truth is here again,

the fight's about to-
Take it up, a little more,

it's going down, this is war.
The moment of truth is here again,
The fight's about to begin.
(HEYYYYYYYYYYY)
Standing together, holding the line,
shoot from the hip, never divided.
Breaking the law, popping the chain,
ready to rock, we're ready we're
bringing our game.
(HEYY!)
So lights off for the show,
break it down, here we go.
The moment of truth is here again,
the fight's about to-
Take it up, a little more,
it's going down, this is war.
The moment of truth is here again,
The fight's about to begin.
So lights off for the show,
break it down, here we go.
The moment of truth is here again,
the fight's about to-
Take it up, a little more,
it's going down, this is war.
The moment of truth is here again,
The fight's about to begin.
(FIGHT! FIGHT!)
It's about to begin.
(FIGHT! FIGHT!)
It's about to begin.
(FIGHT! FIGHT!)
It's about to begin.
HEY!
