Set the Night On Fire

[The Getaway](#)

Girl do what you have to
Find a way for me to notice you
Lock eyes when I see you
Baby use those baby blues
Got you movin to the bass groove
I bet you think I built this beat for you
Shaking hips, yeah you got moves
You got me, I got youYeah, you want me girl, you want me
Yeah, yeahChorus:
When I see you, the way your body moves
You know youre gonna start a riot
Lets set the night on fire
Baby, believe me, the night is young
And theyre gonna try to end this
Lets set the night on fireLock the door to your bedroom
Another hit to get you in the mood
Soft skin under tattoos
Girl if you only knew
Youll be sleeping when I leave you
The road calls and whats a boy to do
Wont be long til Im back through
You had me, I got youYeah, you want me girl, you want me
Yeah, yeahChorus
