

Keep Being You

Isyana Sarasvati

I don't want your money
Forget about that honey
I just wanna be with youFancy things won't get me
Diamonds, there are plenty
But there is only one of youBaby we could be together
Nothing but your love foreverI can be your lover
You can be my lover
I won't need nobody but youJust the way that you move
Shows me what you can do
I don't need you to prove
Cause I already knew
Give me love, give me love baby
I just need your love, need your love baby
I don't need you to prove
Just keep being youI dont need your flowers
Just your hours
Baby you have bloomed in my heartSo many have tried to
But only you do
Make me feel like this, yes youBaby we could be together
Nothing but your love foreverI can be your lover
You can be my lover
I won't need nobody but youJust the way that you move
Shows me what you can do
I don't need you to prove
Cause I already knew
Give me love, give me love baby
I just need your love, need your love baby
I don't need you to prove
Just keep being you
Baby just
(Just keep being you)
Baby just
(Just keep being you)Oh darling I think that we've made it
I dont need anything, believe it
My heart feels rich when you're near me
There is no emptinessYou spread your love and I can feel it
Deep in my soul
I see you've given me much more
Thank you for the greatest gift of allJust the way that you move

Shows me what you can do
I don't need you to prove
Cause I already knew
Give me love, give me love baby
I just need your love, need your love baby
I don't need you to prove
Just keep being you
Just keep being you
