

Colors Radiate

Camera Shy

I can't read your mind
Its unclear
Fading all the time
To here
The thoughts you have inside
Dont tell me
You just run and hide I can see you in every window
I can see your colors radiate
The sun sets in your eyes
Color you
Fire in my mind
Goes dark
Hold my hand and talk till morning
Sleep will wash away I can see you in every window
I can see your colors radiate
I can see you in every window
I can see you
I can see you in every window
I can see your colors radiate
