

Bear No Surprise

Playalitical

Verse 1

Before you look down on playa over that white shite
understand I work in day light you gotta work the night shift
I came from a city where they judge how your spirit is
and see me im like an Egyptian pyramid
how you gonna burn bridges for less than 50 bucks
then claim that your situation is bad luck
yea right see me I donâ€™t live off the quick buck
im bout longevity big rims and big trucks
im 90 days same as cash approved for uhauls
donâ€™t try to fuck wit me youâ€™ll end up wit blue balls
lets triple beam the hearts out get rid of the Rupauls
and see how many gangstas can live under true laws
im Playalitical homie who are you clownin?
I could leave Colorado skinny poor and drownin
get a bitch a bird and low income housing
get a grip pay me debt and spend a couple thousand/ you?

CHORUS:

No im not fools gold I bear no surprise
but you cant see me unless you open your eyes
if you aint opened your eyes then donâ€™t open your mouth
because you wont be able to see what your talkin about. REPEATx1

Verse 2

Im sick of all these zombies
mockin they papis
alot of MC Kinkos makin copies
yea I can hear you you like a walkin walkie talkie
come around me its feed back/ get off me
my name is out stop lyin to people
Im the values bank your opinions getin repod
â€œknock knockâ€• im putin one in your peep hole
you seen Godzilla well im the sequel
this time im dodging the ghetto birds my words are fire
I donâ€™t call em haters no more I call em lyers
ive spent a lot of time rhyming over my pimp beats
what else could I use to make blind men see
the only difference between me and a platinum sellin artist

is some bubblegum videos rotation and red carpets
I gotta work twice as hard to get anyone to listen
break down my persona there aint no glitches in my system/ you?

CHORUS:

No im not fools gold I bear no surprise
but you cant see me unless you open your eyes
if you aint opened your eyes then donâ€™t open your mouth
because you wont be able to see what your talkin about. REPEATx1

Verse3

What seperates most from the ill
is that the ill wants it all while most want a deal
while you suckin labels off for .60 a unit
we getin sucked off and 4.60 a unit
and thatâ€™s nationwide baby bayside AE
been on the payed side lately
mainly due to the fact that the ill got a image
that appeals to the millions that are peelin for the realist
spillers to drop albums and not gimics
plus we genuine continuing got doe then bring ya venue in
and all you rapper thatâ€™s grandpas ya shine is over
let someone else come up go take a seat on ya sofa opa
you the next big thing go tell it to Oprah
donâ€™t tell it to me you aint developed to be
like my team from Corona Queens walk town Chicago
Virginia Texas and 2 Denver desperados/ what.

CHORUS:

No im not fools gold I bear no surprise
but you cant see me unless you open your eyes
if you aint opened your eyes then donâ€™t open your mouth
because you wont be able to see what your talkin about. REPEATx1
