

Annie

That Dog

You look like an angel
Your blue eyes leave a still impression
My friends miss you coming 'round
People talking 'bout it all over town
I never knew you then and I know you now
I don't know how, I don't know how You'd sit in your house, you're writing out your will
He'd be there holding your baby and I'd be there holding him still
He said let me take you out so you can have some fun
But can we take your car 'cause I don't have one This is like a car crash, it's in my car and he's driving
He said let's go for a ride, I'll take you anywhere you wanna go
I asked if maybe I could drive, he said, "No" He'd be there holding your baby and I'd be there playing the
grooves But can we take your car 'cause I don't have one
But can we take your car 'cause I don't have one
But can we take your car 'cause I don't have one I don't know how, I don't know how
I don't know how, I don't know how
