Little Death

W.a.s.p.

Get your forehead into my kiss
Embrace me, careful darkness
All my love fades away
Little Death's reflections of
Who's the darkest muthafucker on the planet
Fiction tied to death I know I am it
Immortal loveHey, Hey, Hey, Wanna set you free
Hey, Hey, Hey, Would you die for meGimme Little Death it's so romantic, Oh, Oh
Fuck it up to death it ain't so tragic, no.....Hatred will, immortal wings
Vampires and Blackened Children
Kiss of the from my lips
Death we are, death we've always been
Who's the darkest muthafucker on the planet
Just so close to death I know I am it
Demon sonHey, Hey, Hey, Wanna set you free
Hey, Hey, Hey, Would you die for meGimme Little Death it's so romantic, oh, oh
Fuck it up to death it ain't so tragic, no....Gimme Little Death it's so romantic, Ahhh gimme something
Come feel young and special gas of magicIn your forehead, into my kiss
Embrace me a careful darkness
Death we are, death we've always been
Who's the darkest muthafuckerIn your forehead, into my kiss
Embrace me a careful darkness
Death we are, death we've always been
Who's the darkest muthafuckerDarkest muthafucker on the planet
Just so close to death I know I am it
Demon sonHey, Hey, Hey, Wanna set you free
Hey, Hey, Hey, Would you die for meGimme Little Death it's so romantic, oh, oh
Fuck it up to death it ain't so tragic, no....
Gimme Little Death it's so romantic, Ahhh gimme something
Come feel young and special gas of magic
