

# Found

Liam Mayron

Like a beat up boat that never made it to the shore  
Like an old love letter hidden in the bottom drawer  
Like a shiny penny heads up on the ground  
I've been found  
Like a message in a bottle in the sand  
Like the ace of hearts that shows up in your hand  
Like an old lost love the second time around  
Found  
I've been found, hungry like the desert  
Waitin' on a drop of rain  
Found, lost for so long  
No, I never thought that I'd be saved  
Somehow, I finally discovered  
That this is where I wanna stay  
Baby now, I've been found  
When I'm here with you underneath the sheets  
It's a perfect world, so whole and so complete  
You're the simple truth that makes me who I am  
A better man

I've been found, hungry like the desert  
Waitin' on a drop of rain  
Found, lost for so long  
No, I never thought that I'd be saved  
Somehow, I finally discovered  
That this is where I wanna stay  
Baby now, I've been found  
Well, I've been found  
I've been found, hungry like the desert  
Waitin' on a drop of rain  
Found, lost for so long  
No, I never thought that I'd be saved  
Somehow, I finally discovered  
That this is where I wanna stay  
Baby now, I've been found  
I've been found  
I've been found  
I've been found
