

# Irresistible

## Mariah Carey

Slippin', slidin', glidin', low ridin', yeah  
Ain't no hidin' from this hit, on the real  
Fool, you know how we do it, irresistible  
Just keep it poppin', ain't no stoppin'  
Fo' hoppin', ass droppin'  
Keep it poppin', ain't no stoppin'  
Fo' hoppin', ass droppin'

Everytime I try to leave, something pulls me back, baby  
Tried and tried to let you go but it's just impossible  
Everytime we say goodbye, bitter tear drops fill my eyes  
Wish I didn't need you so but you're irresistible  
I don't wanna lose you to somebody else  
But I can't go on contradicting myself  
I know that it's pointless to keep holding on  
But something inside tells me, you're where I belong  
Everytime I try to leave, something pulls me back, baby  
Tried and tried to let you go but it's just impossible  
Everytime we say goodbye, bitter tear drops fill my eyes  
Wish I didn't need you so but you're irresistible  
I know that it's unrealistic to think  
That things will get better between you and me  
'Cause time after time you just shatter my heart  
But when I'm without you, I feel so torn apart  
Everytime I try to leave, something pulls me back, baby  
Tried and tried to let you go but it's just impossible  
Everytime we say goodbye, bitter tear drops fill my eyes  
Wish I didn't need you so but you're irresistible  
Boy, I wish that I didn't love you so much  
I try to tell you no but you're irresistible  
Westside, Westside  
She's comin' to the Westside, Westside, oh yeah  
Mariah's on the Westside, Westside, yeah  
Hittin' on the Westside, Westside  
Ain't nothin' goin' on but a party  
And a hit song, jumpin' all night long  
It's like times gettin' deeper and the game's gettin' flyer  
'Cause the Westside done connected with Mariah  
I hit the Grammy party and the '64 is what I drove through  
'Cause divas like thugs too

Mack 10, I'm so, so gangsta with meals  
And I ain't lyin', that's on everything, I'm keepin' it real  
Can you feel it? Nothin' can save ya from this  
Young rider with big wheels and paper  
The millenium, Clyde and Bonnie, doin' 90  
With Giovannis on the big body  
Ya friends say, "Girl, he ain't lovin' ya right"  
You stay down with this thug in ya life  
What we got is deeper than a physical  
Dub C and Mariah, gangsta lovin' is irresistible  
See, I only want it to be like it was  
When we got together and first fell in love  
Sometimes, it's just like I'm addicted to you  
This love's so consuming, I don't know what to do  
Everytime I try to leave, something pulls me back, baby  
Tried and tried to let you go but it's just impossible  
Everytime we say goodbye, bitter tear drops fill my eyes  
Wish I didn't need you so but you're irresistible  
Everytime I try to leave, something pulls me back, baby  
Tried and tried to let you go but it's just impossible  
Everytime we say goodbye, bitter tear drops fill my eyes  
Wish I didn't need you so but you're irresistible  
Everytime I try to leave, something pulls me back, baby  
Tried and tried to let you go but it's just impossible  
Everytime we say goodbye, bitter tear drops fill my eyes  
Wish I didn't need you so but you're irresistible  
You know how we do it
