

# Blame It On the Heat

Deborah Allen

The air was so thick  
Well, you could cut with a knife  
And the night stood still Never felt like this in all of my life  
It never felt so real, I can't believe  
The way my heart melts with every beat Blame it on the heat  
It happens when we meet  
Blame it on the sweet southern nights  
Blame it on the heat Baby, when we touch  
Uncontrollable fire, comes over us  
Why we create such a burning desire  
Is mysterious, we go out of our minds  
As the temperature climbs by degrees Blame it on the heat  
It happens when we meet  
Blame it on the sweet southern nights  
Blame it on the heat, blame it on the heat We go out of our minds  
As the temperature climbs by degrees Blame it on the heat  
It happens when we meet  
Blame it on the sweet southern night  
Blame it on the heat, blame it on the heat Blame it on the heat
