

Lowlife Highlights

Mustasch

I got my hands on the steel
And satan sitting by my side
I have a gang full of rats
We're gonna raise hell tonight We gonna feast to our death
Drink your blood, split your spine
You're looking kind of cute
Wanna have a date with death tonight? I make my way through the night
And you might disagree with my style
I'm gonna drive until the end of time
Tonight it's lowlife highlights Never mind what you've been told
Just let it be
Things are looking fine
When chaos is all around
I make my way through the night
And you might disagree with my style
I'm gonna drive until the end of time
Tonight it is lowlife highlights
