Make It Soon

A-ha

I watch my love, she's sleeping
The air around her deepened
Tomorrow she will smile again
Tomorrow she'll get wild again
My love
And the moon
Take your time
Make it soon
I didn't mean to hurt you
It's what I use the words to
Every time we lose our way
I get so many things to say
My love
And the moon
Take your time
Make it soon
I see you and I hear you call
But sometimes when I lost it all
I go out of my mind
To see what I can find, I can find
[Incomprehensible]I watch my love, she's sleeping
The air around her deepened
Tomorrow she will smile again
Tomorrow she'll get wild again
My love
