

# Love Is The Healer

**Donna Summer**

So many times in my life I've been alone, left alone, heart broken  
And turned around, I find myself crying in the night time  
Dying out loud in the night I sleeplessly wake up from a dream  
That's tormenting me, I, I, I, I, I gotta get help, oh yeah  
Love is the healer, love is the healer, come heal me  
Love is the healer, love is the healer, set me free  
Late at night I was afraid and I tried to turn away  
I was afraid to face what in-evil-it-able is  
Say you know the way to find true freedom  
Can you save yourself from the pain you're feeling?  
Something in my head that you're dreaming  
That the angels said  
Love is the healer, love is the healer, come heal me  
Love is the healer, love is the healer, set me free  
Love is the healer, love is the healer, come heal me  
Love is the healer, love is the healer, set me free  
I am on a mission, a mission of love, I am on a mission  
A mission of love, I am on a mission, a mission of love  
I am on a mission, a mission of love, I am on a mission  
A mission of love  
Love is the healer, love is the healer, come as a healer  
Set me free, love is the healer, come as a healer, set me free  
Love is the healer, come as a healer, set me free  
Love is the healer, come as a healer, set me free  
Do you know the way to love? Do you know the place of love?  
Do you know what love can do? Do you know what it'll do for you?
