

# Long Live da Game

T.I.

Yea,  
Dis for all my niggas who think they hard,  
You want to know what's hard(whats hard pimp?)  
Going about yo day nigga losing yo life at the end of it  
Now that's what's hard (minding my motherfucking business)  
Let me tell y'all bout the last day I lived nigga I'm in the 96 Impala with the gat in my lap  
Annihilating any nigga trying to work in my trap  
Now see the feds got me tap'd  
So to keep 'em off of my bac  
I got a crib in the trap and a crib to relax  
Now my indictment was a secret and that's the way that they keep it  
If I ain't have a hoe giving head to the feds  
Coming back telling me exactly what they said  
I'm a dead man walking  
Waiting on time in jail  
But I'll die before I let 'em stop my mail  
Long as I got another ounce to sell  
What the hell I'ma bail? a grap my scale  
Get another key and I'ma slang my yayo  
Niggas on the westside can't re-up because its a drought  
So I check the crack house,  
DAMN it sold out  
So back to the crib so I can check this stash  
Ain't sure about how much dope I had  
Got a couple keys in the safe right now  
Weigh it up cook it up then chop it down  
Now I'm ready to go and pick up my fetti  
But before I leave the house I can't dip without grabbin my G'z  
And my keys to my brand new V put 'em in pocket with the gat to see  
Niggas please nigga you holla bout freeze  
Put this red dot to ya ass and squeeze  
Now I'm dipping bac to the swats  
With the 4-4 and a plastic glock  
Turned around and I had to stop  
Couldn't trap swarn it was cops  
Standing there and I still ain't scared  
Mac Boney nem must have fled  
Only cops is I fear is the feds  
On my car flashing blue and red

Damn there they go now its time to dip  
Got the 4-4 right my hip  
9 millimeter wit a extra clip  
Thats what y'all niggas get fucking round wit TIP  
Busting at 'em  
N cussin at 'em but ain't no shaking 'em  
Them bullets that they was busting at me my vest was takin 'em  
Making them pigs fall in pain  
Turned around 'cause one call my name  
Took a hot one to the brain  
Yea I died but long live the game
